

Thales Campelo da Conceição

Senior Software Engineer | Solution Architect | AI-Driven Product Builder

Professional Summary

Software Engineer and Systems Analyst with approximately 18 years of experience in technology, enterprise software development, solution architecture, systems integration, and software engineering. Strong background working within the Microsoft ecosystem, including C#, ASP.NET MVC, .NET Framework, .NET Core, REST APIs, SQL Server, Oracle, systems integration, solution modeling, and enterprise full-stack development. Experienced across the full software lifecycle, including requirements gathering, business analysis, architecture, development, testing, technical documentation, support, and product delivery. In recent years, has also focused on innovation initiatives, automation, modern architecture, AI-assisted development, and accelerated MVP creation focused on scalability, productivity, and fast delivery.

Technical Skills

- C# / ASP.NET MVC / .NET Framework / .NET Core
- REST APIs and Systems Integration
- SQL Server / Oracle / Relational Databases
- Software Architecture
- Data and Process Modeling
- JavaScript / TypeScript
- React / Next.js
- Git / GitHub / Bitbucket
- CI/CD and Deployments
- Scrum / Kanban / Agile
- Technical Documentation
- Enterprise Systems
- Cloud Applications
- Supabase / Vercel
- AI-assisted Development
- Automation and MVP Acceleration

Professional Experience

Software Engineer — Grupo Energisa

Feb 2023 – Nov 2025 | Remote

Software engineering and innovation initiatives focused on architecture, technical governance, software quality, automation, and AI-assisted accelerated development.

Senior Analyst / Scrum Master — Compass.uol

Jun 2021 – Oct 2022

Worked with financial sector client using C#, ASP.NET MVC, WCF, WebAPI, .NET Core, and SQL

Server, including production delivery planning, support, technical analysis, and Scrum Master activities.

Senior IT Business System Analyst / Full-Stack Developer — Energisa

Jan 2019 – May 2021

Senior ASP.NET MVC analyst and full-stack developer focused on border measurement management systems integrated with CCEE.

Senior IT Business System Analyst / Full-Stack Developer — Energisa

Jan 2012 – Jan 2019

Corporate software development, architecture, systems integration, database modeling, and technical documentation.

Systems Analyst — Handcom

Feb 2011 – Nov 2011

Development and integration activities using VB6, ASP, Oracle, SQL Server, and MySQL.

Systems Analyst — AIESEC Juiz de Fora

Feb 2010 – Dec 2010

Development of exchange control system as part of Systems Analysis course conclusion.

Systems Analyst Trainee — Uptodate

Jul 2009 – Dec 2010

Corporate reports, banking file generation, integrations, and Microsoft tools.

Internship in Systems Analysis and Development — guide

Feb 2009 – Jun 2009

Participation in migration and creation of web systems using MVC, Flex Builder, and .NET (C#).

Analyst/Developer — Zeus Rio Solutions

May 2007 – Jul 2008

ERP development and maintenance using SQL Server, Visual Studio, C#, and VB.

Education

Systems Analysis background focused on software engineering, enterprise development, and solution architecture.

Languages

Portuguese — Native.

English — Intermediate.

Projects & Technical Interests

Software architecture, AI-assisted development, automation, MVP acceleration, modern applications, systems integration, and cloud-native solutions.
